1. Trace off the darted jacket sleeve slop- 2. Using ruler and curves, draw in your er. desired style lines

- 3. Trace off or cut apart the initial pattern pieces at the style lines.
- 4. Close the elbow dart, on the back sleeve piece, transferring it to the center sleeve seam.

- 5. On the center sleeve, draw in slash lines as shown.
- 6. Slash from the top down along the slash lines

- 7. Notch the sleeve seam intersection
- 8. Draw a center line on a fresh piece of pattern paper.
- 9. Place the slashed center sleeve piece on the paper and spread evenly as shown, at least 2" from the center line

on each side, at the center sleeve cap.

- 10. Mark a point 1 1/2" (or more) above the original cap height and blend a new sleeve cap, using your curves.
- 11. Blend seamlines as needed.
